ABOUT ME

I am a dedicated full-stack web developer skilled in PHP and JavaScript, with solid experience in MySQL and Laravel. I build efficient, secure, and intuitive websites with a focus on performance and usability. For the frontend, I leverage HTML, CSS, JavaScript, and React to deliver clean, responsive, and mobile-friendly interfaces. I value simplicity and maintainability in my code and strive to create solutions that provide a great user experience. Committed to continuous learning, I am always open to new challenges that help me grow in the tech industry.

EXPERIENCE

April 2024 - PRESENT

Digital Ultras

Digital Ultras , New Delhi — Full Stack Developer

I build and manage web apps using PHP and Laravel, focusing on clean, mobile-friendly designs that are easy to use. I set up secure login systems, work with MySQL databases, and create APIs to connect the front end smoothly. I also make apps faster by using caching and writing better queries. I follow good coding and security practices to keep everything running safely and smoothly. I enjoy fixing bugs, working on projects with others, and always learning the latest in Laravel and web development.

EDUCATION

2019 - 2022

Lucknow University

Lucknow University, Lucknow UP

Studied programming, web development, databases, and networks. Got hands-on experience building software and learned how tech systems work. It really boosted my coding skills and got me ready for a career in web development.

2017 - 2019

JAC Board, Jharkhand

RM High School, Deoghar, Jharkhand

Completed my higher secondary education with a focus on science and mathematics. Built a strong base in logical thinking and problem-solving, which helped spark my interest in technology and coding.

- JSON
- AXIOS
- React Js
- AJAX
- Bootstrap
- MySql
- PHP
- Laravel
- SEO
- WordPress
- Shopify
- Google Ads
- Git
- REST APIs
- OOP
- Github

PROJECTS

Multi-Vendor e-commerce - (PHP, Laravel, MySQL, JavaScript)

Developed a dynamic multi-vendor eCommerce platform with role-based access for users, vendors, and a super admin. Users can browse and purchase products; vendors can register, manage listings, and track orders; the super admin verifies vendors and manages categories. The platform includes a secure checkout system, responsive design, vendor dashboards, and a scalable backend for a seamless shopping and selling experience.

TripSpray - (HTML, CSS, JavaScript, PHP, MySQL , ...)

TripSpray is a travel booking website featuring curated tour packages across India. It offers destination-based listings, detailed itineraries, and inquiry forms managed via a secure admin panel. I developed a fully responsive front-end with PHP server-side processing and MySQL database integration, focusing on clean design, easy navigation, and mobile compatibility to enhance user engagement.

AWARDS

2022 - 2023

TGC Animation &
MultiMedia, Delhi

1 Year Full Stack Developer Diploma

Completed a one-year diploma in full-stack development, learning to build both front-end and back-end web apps. Gained hands-on skills in HTML, CSS, JavaScript, PHP, MySQL, and Laravel, with a focus on user experience, security, and performance optimization.

LANGUAGES

Hindi, English, Bengali
